INFORMATION ABOUT THE YUPIK NEW TESTAMENT

The St. Lawrence Island Yupik New Testament was translated from the Greek language, which was used by the original writers of the New Testament.

Verses which were not in all the old copies of the New Testament, (such as Mark 16:9-20) are printed in *italic letters*.

When the Yupik translators combined two or more verses, it was so the reader would know the correct order of the events.
